

How Nitric Oxide Therapy Addresses Erectile Dysfunction

brought to you by www.healthyat60Plus.com/erectiledysfunction

Thank you for downloading this **FREE Report**. We've divided this report into three sections. **The first section** outlines our recommended treatment protocol using **ProArgi-9+** as the source for creating the needed nitric oxide. **The second section** provides a general understanding on how nitric oxide therapy addresses cardiovascular and sexual health. **The third section** details why we believe **ProArgi-9+** is the best of all the L-arginine supplements in the marketplace.

Section One: ED Treatment Protocol Using Nitric Oxide Therapy

Our recommended treatment protocol is a simple two step process.

Step 1 – Take 1 packet (or scoop) of **ProArgi-9+** and mix it in 8 ounces of water. Drink this first thing in the morning. We recommend using room temperature water and drinking it over a 15 minute period.

Items to Note: Nitric oxide helps to regulate the digestive process and since bowel movements are most active in the morning some may experience loose stools or diarrhea. If this occurs, then take your first packet or scoop with your morning breakfast. Just make sure your breakfast is low in sugar. Or, put your packet or scoop into 16 ounces of water and then hydrate yourself over a 60 minute period.

Step 2 – Take 1 packet (or scoop) of **ProArgi-9+** and mix it in 8 ounces of water. Take this 30 minutes prior to bedtime.

When taken 30 minutes prior to bedtime the nitric oxide will cross the blood brain barrier to stimulate the pituitary gland to naturally produce growth hormones. For men this helps in two key areas. First it helps to maintain muscle tissue. Second, it aids in sexual health issues. You may notice morning exertions when you wake up.

Items to Note: For about 10% of the population Step 2 can interfere with sleep. There are no stimulants in the product but because of the improved blood flow to the brain you're just not tired and don't feel like sleeping. If this occurs, then take your second packet or scoop late afternoon around 4 or 5 pm or early evening around 6 or 7 pm.

Important Cautions

1. **DO NOT combine ProArgi-9+ with any Viagra type of medication.** Nitric oxide creates vascular dilation. Viagra type medications inhibit vascular constriction. When combined you're setting yourself up for a massive headache. If you plan to use Viagra like products, then you must keep at least a 6 hour separation between the two products.
2. **If you're on high blood pressure medications then monitor your blood pressure.** If you see your blood pressure numbers decreasing, then work with your physician to adjust your medications so that hopefully you can either eliminate the medication completely or lower it to the minimum level while still maintaining normal blood pressure readings.

Section Two: A General Understanding on How Nitric Oxide Therapy Addresses Cardiovascular and Sexual Health.

To help you understand nitric oxide therapy and how important the health of your endothelium is in the production of nitric oxide, we have two videos to watch. All you have to do **click on each image** and that video will play.

The Secret to Cardiovascular Health video will give you a good understanding of a tissue called the **endothelium** and how it regulates most of your cardiovascular health.

This video will also help you understand how it creates **nitric oxide** – the master signaling molecule of your vascular system – to help you improve your vascular health.

How Nitric Oxide Improves Sexual Function video will give you a good understanding on how **nitric oxide** directly effects sexual health.

This video will also help you understand how Viagra like products work. But without your ability to create nitric oxide, these types of products are ineffective.

Section Three: Why We Believe ProArgi-9+ is the Best of All the L-Arginine Supplements in the Marketplace.

It's one thing for us to tell you **ProArgi-9+** is the best of all the L-arginine supplements. It another thing for the medical community to state:

“ProArgi-9+ is the highest quality L-arginine supplement in the world.”

—Physicians' Desk Reference (2014), pg. 2571

With 262 quality assurance steps, pharmaceutical grade L-arginine, and other key ingredients, **ProArgi-9+** has caught the attention of the medical community for its effectiveness in helping to address cardiovascular health issues.

The following videos will address some of the misinformation that is promoted on the internet by other manufactures trying to promote their products.

The Truth About L-Arginine video addresses the false statement that **“L-arginine is bad for those over the age of 40.”**

That statement **is not true** and this video clearly helps you understand how important this amino acid is to your overall health

The Truth Series:
How Does **L-arginine Plus**
Compare to **ProArgi-9+** From
Synergy Worldwide!

How Does L-arginine Plus Compare to ProArgi-9+ video will give you a good understanding on why **ProArgi-9+** would be a better choice.

Plus this video helps you understand by **vitamin K2 and pomegranate fruit juice** are two critically important ingredients in the production of nitric oxide.

If you want to purchase **ProArgi-9+** and put it to the test with our **120 Day Money Back Guarantee**, then please use the purchasing buttons below. They directly interface with the Preferred Customer Program from Synergy Worldwide.

The Preferred Customer Program allows you to buy at wholesale prices and earn Reward Points that can be redeemed for FREE Product:

**1 Box of Mixed Berry ProArgi-9+
30 servings / 15 day Supply**

\$4.67 per day

\$70 plus Sales Tax and Shipping

**Purchase One Box of Mixed
Berry ProArgi-9+**

**4 Boxes of Mixed Berry ProArgi-9+
120 servings / 60 day Supply**

\$3.33 per day

\$200 plus Sales Tax and Shipping

**Purchase Four Boxes of Mixed
Berry ProArgi-9+**

**210 Servings
Equals 7 canisters
\$34.29/unit**

Absolutely The BEST VALUE!

**1 Jumbo Jar and 1 Box of
Mixed Berry ProArgi-9+
210 servings / 105 day Supply**

\$2.29 per day

\$240 plus Sales Tax and Shipping

**Purchase Mixed Berry Jumbo
Jar Plus One**
